DETAILED ACTION

1. Upon further review, the Examiner has found more distinct species than originally, therefore, the last Office action is being withdrawn. Examiner apologizes for any inconvenience this may have caused.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

- a. The species shown in Figures 1-4;
- b. The species shown in Figures 5 and 6;
- c. The species shown in Figures 7 and 8;
- d. The species shown in Figure 9;
- e. The species shown in Figure 10;
- f. The species shown in Figure 11 and 12;
- g. The species shown in Figure 13;
- h. The species shown in Figures 14-19;
- i. The species shown in Figures 20-22;
- j. The species shown in Figure 23;
- k. The species shown in Figures 24-28;
- l. The species shown in Figure 29; and
- m. The species shown in Figure 30.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeanne-Marguerite Goodwin whose telephone number is (571) 272-2104. The examiner can normally be reached on alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kammie Cuneo can be reached (571) 272-1957. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
